9 powerful days of intensive coaching and NLP Master training

We all want to be best at what we are doing, don't we?

For those who want to take it to the next level; there is the NLP Master Practitioners Training in June 2012. This 9 day course is the next step in taking all the skills learned on Practitioner course to the next level of expertise.

Becoming a Master NLP practitioner means:

- Moving from being a technician to an artist by creating your own techniques.
- Challenging yourself and your beliefs.
- Being aware of your behavior and language.
- Reading and calibrating others effectively.
- Influencing others effectively.

The NLP courses are accredited with the ABNLP (American Board of Neuro-Linguistic Programming), The Institute of Humanistic and Neuro-linguistic Psychology and I am also registered as Training Institute with Comensa. (Coaches and Mentors South Africa). This means that when doing any of these trainings you can also register with these organizations.

Course includes:

- Fully recorded 9 day course
- Text books
- Pre-course work
- All food, soft drinks, etc

“No man is free who is not master of himself.”
